Summary

Full Stack Developer with 1.4 years of professional experience and freelance project work since 2022 building scalable web applications. Proficient in JavaScript (ES6+), React, Node.js, RESTful API development, and SQL/NoSQL databases. Experience in delivering responsive, maintainable solutions in Agile environments.

Skills

Languages: JavaScript (ES6+), PHP, HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Laravel, Tailwind CSS

Databases: MongoDB, MySQL

Tools & Technologies: Git, GitHub, RESTful APIs, Razorpay API Integration, Generative AI APIs

Experience

Full Stack Developer

Jul 2024 – Oct 2025

RS-Software, Nagpur, India

- Engineered and deployed 5+ production-grade web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) and PHP/Laravel, improving page load performance by 30% and increasing user engagement by 20%.
- Designed and implemented responsive, cross-device UI architectures supporting 500+ active users, ensuring accessibility and optimized front-end performance.
- Integrated RESTful APIs to enable seamless communication between React frontends and backend services, improving data retrieval efficiency by 25% and enhancing system reliability.
- Optimized MongoDB and MySQL database queries through indexing and query refactoring, reducing average API response time by 20%.
- Mentored junior developers, conducted code reviews, and enforced clean coding standards, strengthening overall code quality and team productivity.

Projects

AI Code Reviewer Platform | *MERN, Google Gemini API*

Oct 2025 – Dec 2025

- Architected and developed a full-stack MERN application integrating Google Gemini API to deliver automated AI-powered code reviews for performance, security, and best practices.
- Implemented secure authentication using JWT and protected routing to ensure role-based access and secure session management.
- Designed prompt-engineered evaluation workflows to generate structured, context-aware feedback on code quality and optimization opportunities.
- Built secure backend services with Node.js and Express.js to store and manage review history with scalable MongoDB data models.

BanquetPro — ERP Banquet Management System | *React.js, Node.js, Express.js, MySQL*

Jan 2026 – Feb 2026

- Developed a full-stack ERP system to manage banquet bookings, customer records, and event scheduling workflows, streamlining operational processes.
- Designed a normalized MySQL schema and implemented Role-Based Access Control (RBAC) to ensure secure data handling and user-level authorization.
- Integrated automated email notifications using Nodemailer for booking confirmations, reminders, and status updates.
- Engineered responsive dashboard interfaces with React.js and RESTful APIs to monitor reservations, availability, and operational metrics in real time.

Education

Bachelor of Science

Aug 2020 – Dec 2023

Taywade College, Nagpur

Certifications

Full Stack Development Diploma

Feb 2023 – Dec 2023

Code Insight Academy
